

Make a Beaded Icicle Decoration

Take a silver pipe cleaner. Thread a clear round or pony bead onto the bottom and twist the pipe cleaner to keep it in place.

Thread on 6 clear tri-beads, making sure the first tri-bead finishes as close to the round bead as possible.

Next thread on 10 12mm starflake beads.

Then thread on 5 18mm starflake beads.

Now twist the pipe cleaner in a tight loop.

Finally tie a thread to your icicle and hang on your Christmas tree or at a window

For a longer icicle use 1 round bead, 12 tri-beads, 12 smaller flower beads and 8 larger flower beads.
