

Instructions for Making a Turkey Napkin Holder

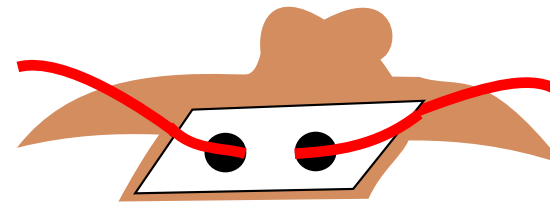

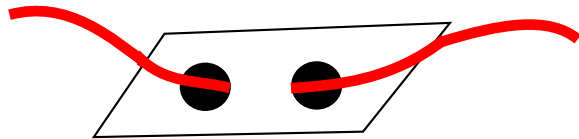

You will need: brown card, orange or yellow card, red sugar paper, a red pipe cleaner, a red paper serviette, a hole punch, a glue stick and tacky pva glue.

1) Cut the pieces from card and punch holes in the relevant place.

2) Use a glue stick (e.g. pritt stick) to glue the feet to the back of the turkey body.

3) Glue the wings to the back of the body.

4) Thread the pipe cleaner through the holes. Use pva to glue the cardboard onto the back of the body, over the wings. Hold the paper tightly against the card for a few minutes.

5) Fold the wattle in half and use a glue stick to glue it to the Turkey's face. Fold the beak in half and glue over the wattle.

6) Add goggle eyes to the Turkey's face.

7) To make the Turkey's tail: Concertina your napkkin. Fold it in half. Wrap the pipe cleaner around it (ensuring that the bottom of the napkin is in line with the bottom of the Turkey). Cut off any excess pipe cleaner.
