

Template for Making a Badger Finger Puppet

Cut nose and face stripes from black felt.

(1) Cut out the pieces.

2) Pin the fur and felt back to back with the arms bent inwards.

3) Use black cotton to stitch the fur and felt together. A neat running stitch is ideal. When sewn turn the body inside out so that the fur and arms are on the outside.

4) Use a glue suitable for felt to stick the stripes and nose to the face.

5) Glue goggle eyes to the face.

6) Glue the face to the body.

Ensure glue is completely dry before playing with your puppet.
