

Making a Monster Book

You need: A glue suitable for sticking material (we suggest Copydex), fur fabric, white felt, goggle eyes in different sizes (we used www.bakerross.co.uk product code E779) and a cardboard book shaped box (our template is made to fit those sold by Baker Ross: product code FK306).

- 1) Cut the fur fabric and felt.
- 2) Glue the teeth to the top opening side of the box.
- 3) Glue the fur fabric round the box.
- 4) Add goggle eyes to the top.

To make your own (non-opening) box book, use the red rectangle to cut a piece of thick card (e.g. from a cardboard box). Glue round an empty box of the large sized Cook's Matches that has been covered in paper or painted.
