

Textured Star-fish Template

- 1) Stick to thin card.
- 2) Cut out the star.
- 3) Pinch along the blue and red lines such that the blue lines are pinched 'up' and the red lines 'down'. Do not score the card - slightly crumpled, rough lines will add to the effect.

- If you are not intending to paint your star-fish:
- 1) Draw round the star.
 - 2) Cut out the star.
 - 3) Hold the paper star over the cardboard star as a guide for folding and follow step 3 above.
