

How to Make a Simple Spider Using Card

1) Cut an A5 sheet of black card or paper into two pieces as shown above.

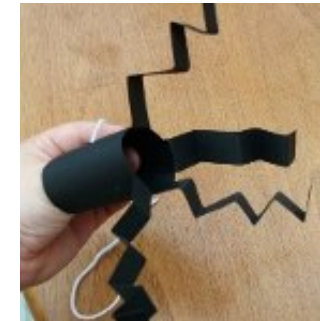

2) Put glue along the width of the smaller piece and stick to the other end to form a tube shape.

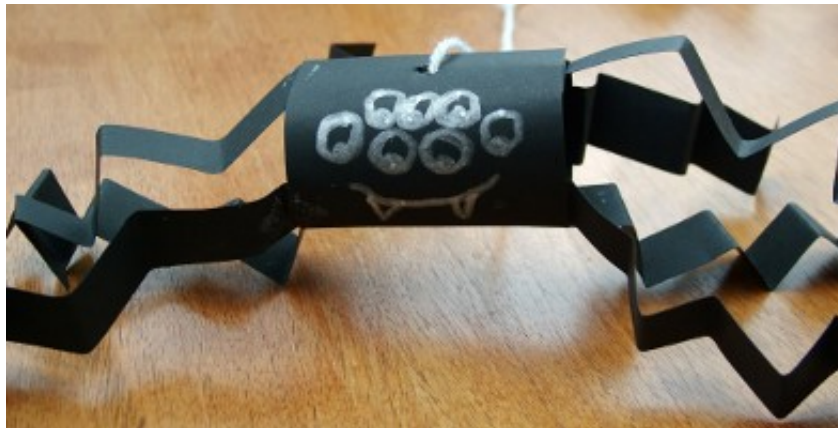

3) Ask an adult to make a hole in the tube. Thread wool or string through the hole. Tie a double knot at the end and add a piece of folded over sticky tape.

4) Cut the rest of the card into 8 strips.
5) Concertina fold each strip.

6) Use glue or sticky tape to attach four legs to the inside of each side of your tube.

7) Use silver pen to add eyes and a mouth.

8) Either hang up your spider or make a loop in the top of the string so that you can dangle the spider from your wrist.
