

## Poison Dart Frog Bean Bag Template

- 1) Cut from felt.
- 2) Sew pieces together leaving the legs poking out and a small hole in the bottom. Note that the top is slightly larger than the bottom to leave room for the filling. You therefore need to tuck slightly as you sew.
- 3) Fill your frog with bean bag beans, rice or similar.
- 4) Sew up the bottom.
- 5) Add eyes and spots with felt or pen.
