

Dream Catcher Instructions

- 1) Cut the grey template shape from card. (Quite tricky - adult help may be needed.)
- 2) Using a fat needle or similar carefully poke holes where the dots are shown. (Younger children should ask an adult to do this.) Tip - blue tac the paper template to your card and place them both on a soft surface such as a thick sheet of craft foam.
- 3) Using a large needle, thread embroidery thread or wool through the holes as shown below.

- 4) Carefully cut off the small pieces holding the circles together.
- 5) Tie a feather to three pieces of wool/embroidery thread. Add beads to the lengths of wool and attach through the holes where the red dots are shown.
- 6) Thread a loop of wool through the blue dot to hang up your dream catcher. (Alternatively you can also use the two unfinished ends of the wool you threaded through the outer circle.)
- 7) Decorate the card as desired.
