Side Pieces

These can use any colour or pattern you Like. Remember to make them 14 beads High. They can be as wide as you like. I made mine 10 beads wide as shown above.

Turning the flat images into a pot

You will need a glue gun to stick each side together. Younger children please ask an adult to do this for you! If you are adding this to a piece of card as part of a desk tidy, these are the only pieces you will need. If you wish to make this as a stand alone craft you will need a base. My base was created using a rectangle of hama beads, 14 by 12. The size you need will depend on the width of your side pieces. You need to add 2 to their width.
