

Saturn Table Decoration

Ask an adult to cut a polystyrene (or similar) ball in half and glue the halves to the shiny side of old or unwanted CDs.

Cover the balls with pva glue and then cover them with glitter. Tip: put your work in an old ice cream tub when you shake glitter onto it. Transfer to a second tub and use the glitter at the bottom of the first tub to complete the job.

Use glitter pens to Add 'rings' to the CD.

Leave to dry overnight.

Ask an adult to use a strong glue to stick the two pieces together.

To Make The Base

Cover a clean toilet or kitchen roll inner with black paper. Decorate with metallic pens, confetti stars, tinsel or other decorative pieces. (We recommend saving the shiny pieces from Christmas crackers.)

When everything is completely dry glue or balance your planet on the base.
